Collection 01

Home staples, all crafted meticulously by hand by our master crafters

In the ZAKKIA studio we have delved deeper into our exploration of those silent winter mornings spent in Sweden, when everything out your window feels frozen and still. This collection has been inspired by the warmth and liveliness our home can bring to us, even in those calm and icy months.

At ZAKKIA we believe steadfast in the classics, and this season we offer a considered collection of home staples all crafted meticulously by hand by our master crafters. We continue to work with the same talented crafters that ZAKKIA teamed up with back in 2014 when we first started this exciting journey and we are forever grateful for the passion and skill they bring to our collaborations each collection.

With a focus on living spaces and entertaining, we have over 20 new designs of homewares, serveware, and planters to help you make your home welcoming and cozy. We believe handmade homewares makes you slow down, enjoy the company of family and friends, or just yourself. Slowing down and appreciating the little things lets us live simply and mindfully. And that's what this collection is all about.

We are so excited to show you our latest ZAKKIA designs under the 2018 Collection 01.

Citrus Stones

Our Citrus Stones look beautiful nestled on a kitchen windowsill, but they also allow you to juice any citrus fruit from limes to grapefruit. Crafted from stoneware, our Citrus Stones are amazingly tactile, easy to grip and can be simply popped in the dish washer for a clean.
