

bulb change

1 Squeeze the bracket and remove it. Now you can pull the socket out of the stone part.

2 Insert the GU10 bulb. Put the socket with the bulb into the stone part. Fix the bulb with the bracket.
Warning: Use only LED

product care

Copper
Copper is lacquered lightly to seal and prevent patinas. Dust gently with a duster or soft cloth. Do not use commercial cleaners. A clean soft damp rag may also be used.

Cantera rosa
Use a feather duster, a clean cloth, or vacuum with a clean brush attachment, do not wipe wet.

safety instruction

Lamp suitable only for indoor use. If this electrical wire or cord is damaged, it should be replaced exclusively by the manufacturer, its technical team or someone with an equivalent qualification in order to avoid any risk. The manufacturer is not responsible for improper use of the product.
